

When you want to keep up to date...

Our education and training service is the only service providing two free, accredited study days each year plus a wide range of other educational resources:

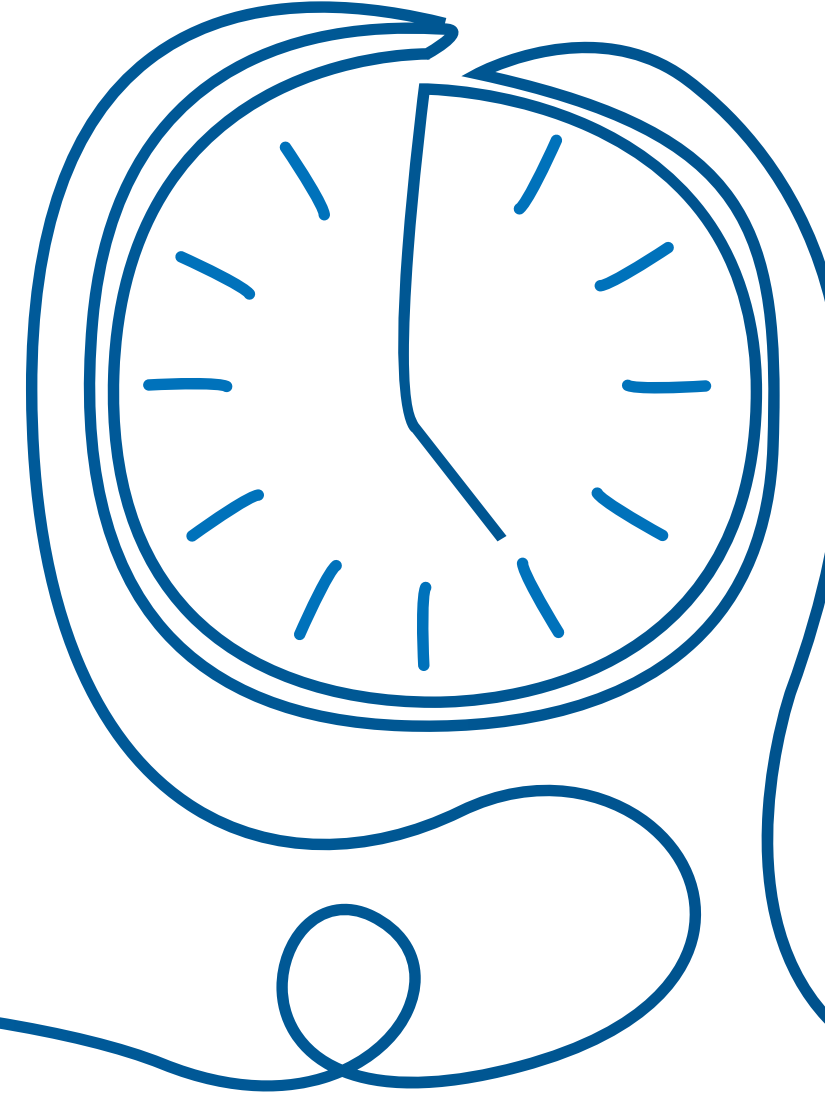

- Comprehensive range of clinical nutrition presentations available
- Supporting your CPD through our information and education service

- Nationwide nutrition lecture service provided by our specialist team of dietitians
- Sponsorship for educational awards
- Audio-visual library service

When you want questions answering promptly...

The only nutrition helpline answered directly by registered dietitians from 9am-5pm, Monday to Friday.

- Professional nutrition advice on the use and composition of the Fresenius Kabi enteral product range
- Verbal and written responses available
- Additional information, such as clinical references and patient information leaflets, provided where appropriate

Need help? You need enteral support

To use our service, or to find out more about the things that set us apart, simply pick up the phone and speak directly to one of our friendly, registered dietitians.

There's only one number to call...

01928 533516

NUTRITION SERVICE
enteral support

Providing continuous enteral support

We speak your language...

Our dedicated team of registered dietitians have all worked within the NHS, so they understand the challenges you face. Whatever your enteral nutrition needs, they have the experience to provide you with a friendly and efficient response.

When you need to go into more depth...

Our information service is the only one to provide a free quarterly abstract bulletin in addition to our other range of information, which includes:

- Access to online databases for literature searches on clinical nutrition
- Extensive library of medical, nursing and nutrition journals
- Clinical reference papers and abstracts available on request
- Same day delivery on most literature searches and clinical references

When you're looking for some inspiration...

Our clinical trial resource offers same day delivery on most literature searches for research and audit projects.

We are committed to supporting clinical nutrition related research and can also provide:

- Expert advice on study and protocol design
- Support for company and investigator led research projects

When you need all this and more...

- Calls answered directly by registered dietitians
- Helpline available 9am-5pm, Monday to Friday
- Same day delivery on most literature searches
- Two free accredited study days per year
- Free enteral nutrition quarterly abstract bulletin
